Academic Projects

1) Training and Placement Web Portal

The training and placement web portal is automated so, TPO is able to register the students for the campus placement and student can update their own data. The proposed system gives automation in all the process of campus recruitment, searching student details individually.

2) Attendance Management System In Java

In the project, three levels of users are present, admins, teachers, and students. Admin can add and edit the teachers, students, and attendance. Teachers can add and edit the attendance only. Students can only view it.

3) Photo Editing App Using Ds Photo Editor SDK

DS Photo Editor offers powerful photo editing tools with a beautiful user interface, which allows you to transform your photos into works of art! It supports HD photo processing with fast image rendering, and you can edit your photos with one tap of a finger.
